

► CORE MRO PRODUCT INTRODUCTION

LOCTITE PC 7319 (CHEM. RESISTANT COATING)

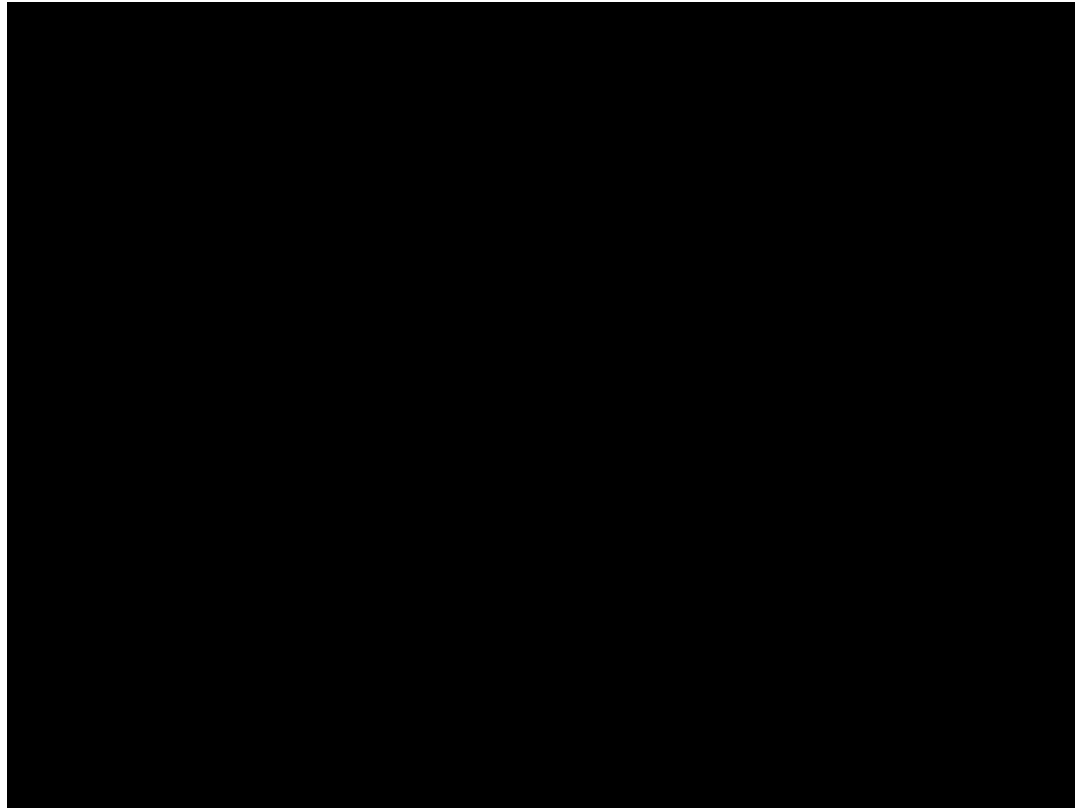

Loctite PC 7319 - Chemical Resistant Coating

- Polyurethane bisphenol-F system for extreme Chemical resistance
- Smooth glossy low friction surface
- **100 % solid epoxy**
- Light grey color
- Temp. resistant 120 °C (Dry)
- Ideal for lining tanks and chutes, lining chemical containment areas, pump bases
- **High Temp. version available**

LOCTITE PC 7319 (CHEM. RESISTANT COATING)

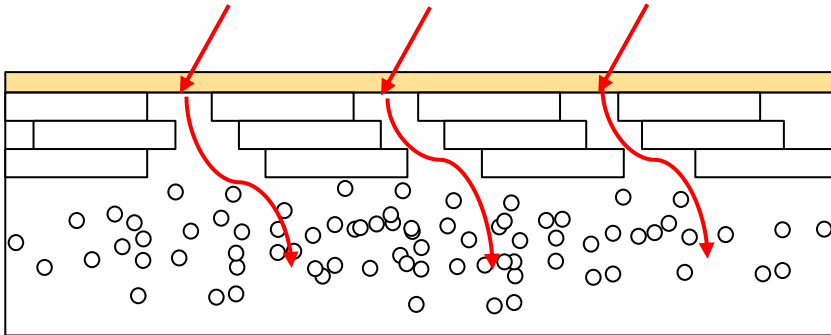

► CORE MRO PRODUCT INTRODUCTION

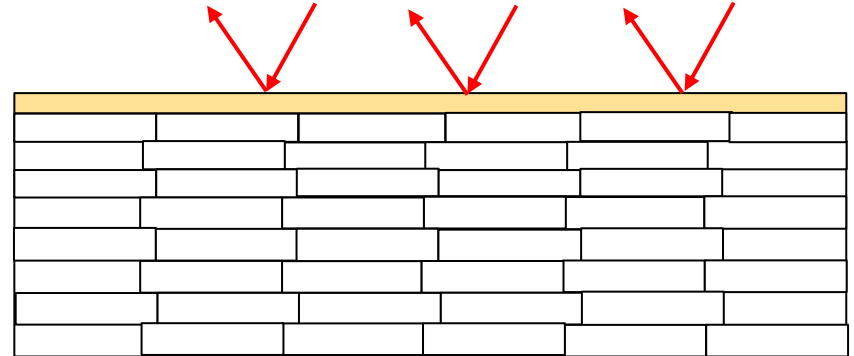

LOCTITE PC 7319

PAINTING OR EPOXY WITH SOLVENT VS 100% SOLID EPOXY

**Epoxy or painting
with solvent**

**100% Solid Epoxy
Coating**

Application Case History

LOCTITE PC 7319 – Prilling Tower – Gresik - Indonesia

Projects

- Year 2017 – Prilling Tower 1B (1 Unit)
- Year 2018 – Prilling Tower 1A (Screening, Cone, Distributor Wall)
- Year 2023 – Prilling Tower 1A (Cone)

Solution

- **Loctite PC 7319 Chemical Resistant Coating**
Thickness: 250 micron

Benefits

- Protect prilling tower structure from chemical exposure and slow down concrete deterioration
- Maintain and extend the service life of the prilling tower

Application Case History

LOCTITE PC 7319 – Prilling Tower – Cikampek - Indonesia

Projects

- Year 2019 – Prilling Tower 1B (Demister Wall, Packed Bed Wall)
- Year 2022 – Prilling Tower 1B (Free Fall)

Solution

- **Loctite PC 7319 Chemical Resistant Coating**
Thickness: 250 micron

Benefits

- Protect prilling tower structure from chemical exposure and slow down concrete deterioration
- Maintain and extend the service life of the prilling tower

Application Case History

LOCTITE PC 7319 – Prilling Tower – Aceh - Indonesia

Projects

- Year 2018 – Prilling Tower 1A (Cone & Free Fall)

Solution

- **Loctite PC 7319 Chemical Resistant Coating**
Thickness: 250 micron

Benefits

- Protect prilling tower structure from chemical exposure and slow down concrete deterioration
- Maintain and extend the service life of the prilling tower

► CORE MRO PRODUCT INTRODUCTION

LOCTITE PC 7319 (ACH'S)

- **Customer / Country**
 - Coal Mining /Indonesia
- **Problem / Application**
 - Chemical Attack at inner wall of Water Tank Truck
- **Solution**
 - Loctite PC 7319 + Loctite EA 3478
- **Benefits**
 - Significant improvement in the life of the asset
